Rehosoft Raised Toilet Seat

This toilet raising block made from polyurethane, injected foam and sanitised PVC, is hygienic and protects against bacteria. It raises the seat of the toilet by 111mm (4½") and weighs 2 kgs with a weight tolerance of 120kg (19 stone). This raised toilet seat is safe and fits snugly and securely on to the majority of toilet bowls without tools or clamps. It is ideal for people who have trouble sitting down and getting up from a standard toilet, and the softness of the seat allows them to stay sitting comfortably for longer periods. This raised toilet seat can be cleaned easily with soapy water or a household cleaner and can be sprayed with disinfectant if necessary.

Commode Ring

Our Commode Ring cushion is filled with chips specially developed to be both smooth and resilient. Smooth for comfort whilst still allowing the inherent dynamics of the elastic foam to make each chip spring back to its original shape. This enduring resilience ensures longer lasting and effective weight absorption and pressure redistribution away from the bony prominences. The cushion can be wiped down with a soapy solution as it has a vinyl cover or dry cleaned without losing the pressure reducing qualities.

1 One Way Briefs

One Way briefs have a high cotton content for superior comfort and 'anti run back' elastics for effectiveness time and time again. The briefs contain a washable pad which is attached to the garment at the top and bottom. Some of these briefs dry three times faster than conventional continence care briefs.

A breathable waterproof backing sheet keeps the wearers skin dry and ventilated and additional pads can be inserted into the briefs to 'double the absorbency' – useful at night time to avoid any chance of leakage. Guaranteed for 200 washes

2 One Way Pouch Pant System

The One Way Pouch Pant System consists of pants and separate pads. The system is an efficient method of protecting the user from leakages - with the added advantage of very easy pad changes. The pants have a discreet integral pouch system which will hold either disposable or re-usable absorbent pad. The pants have a 'stay dry' layer next to the body and a waterproof outer layer to protect clothing.
